Wednesday, November 14, 2018

4:00 – 6:00 pm  Oak Boardroom
**Maternal Risk Screening Advisory Council**
This is a meeting of the members of the Maternal Risk Screening Advisory Council group.

5:00 – 6:00 pm  Pecan Room
**West Virginia Breastfeeding Alliance General Membership Meeting**
This meeting is for the members of the WV Breastfeeding Alliance, but is open to anyone who is interested in promoting breastfeeding in our state.

6:30 – 8:30 pm  Terrace Patio
**Welcome Reception**
Please join us on the Terrace Patio for a pre-conference reception to network and meet up with your colleagues from around the state. A private bonfire, complete with s’mores and refreshments has been arranged to welcome you!

8:30 - 10:00 pm  Pecan Room
**Film Screening:**
**Zero Weeks: America’s family leave crisis and the cost of doing nothing**
Join us for a viewing of the provocative film “Zero Weeks”, an examination of the lack of and desperate need for family leave in the United States. Did you know that only two countries in the world do not provide paid parental leave for new families? The United States is one of those two! We hope you will watch this documentary and spark discussion about how we can work toward a more supportive nation for new families.

Most Americans agree that family comes first, but we are the only developed country without paid leave. In one of the richest nations in the world, having a baby, a medical emergency or an aging parent can be a trigger into poverty. Weaving powerful personal stories with insightful interviews, ZERO WEEKS, explores America’s paid leave crisis and the cost of doing nothing. ZERO WEEKS is the fourth film
by award-winning director, Ky Dickens, a female director with a track record of using her work to shift public opinion.

Thursday, November 15, 2018

7:00 - 8:00 am Ballroom Foyer
*Registration, Breakfast, Networking & Exhibits Open*

7:30 – 8:00 am Tygart Room
**Our Babies: Safe and Sound Briefing**
Interested and current partners are invited to join us for brief campaign updates and informal “open space” discussion of issues surrounding infant safe sleep and shaken baby syndrome prevention. Collect your breakfast and join us for this chance to discuss the important issues around safe sleep.

8:00 – 8:45 am Stonewall Ballroom
**Welcome Remarks and Perinatal Update**
Amy N. Tolliver, MS
Director, West Virginia Perinatal Partnership
Charleston, WV

Kimberly Farry, MD
Chair, Central Advisory Council
West Virginia Perinatal Partnership
WVU Medicine Buckhannon OB/GYN
Buckhannon, WV

8:45 – 9:30 am Stonewall Ballroom
**Management of Obstetric Emergencies**
This presentation will explore common obstetric emergencies including, hypertension crisis and obstetric hemorrhage. The presenter will discuss the use of the OB Patient Safety Bundles to improve outcomes in perinatal emergencies.

Brendan Connealy, MD

Methodist Perinatal Associates
Methodist Women’s Hospital
Omaha, NE

9:30- 9:45 am Stonewall Ballroom
**Break, Networking & Exhibitor Visitation**

9:45 – 10:30 am Stonewall Ballroom
**Addressing Oral Health Needs Effectively and Efficiently Throughout Pregnancy: An Honest Conversation with Providers**
This presentation will explore the complex needs of providing dental care for women with Substance Use Disorders, including the financial burdens of providing such coverage.
The Toddler Brain: Using the Science of Early Brain and Child Development to Make the Case for Investing in the First Five Years
This presentation will review the early brain science and discuss the ACE’s (Adverse Childhood Effects) study. The presenter will highlight the effects of toxic stress on the developing brain, children, families and communities and the importance of investing in early intervention.

Sexual and Gender Minority Health Disparities: Providing Compassionate and Competent Care
This will be an interactive discussion that will provide statistics, facts, and real-life examples of healthcare and the LGBTQIA population. It will encourage attendees to reflect on their own biases and implement changes to provide optimal care to this unique population.

Issue Brief Release – The Impact of the Substance Abuse Epidemic on Moms and Babies in West Virginia
West Virginia KIDS COUNT and the West Virginia Perinatal Partnership have joined together to release the third in a series of six KIDS COUNT Issue Briefs on The State of West Virginia’s Kids. The briefs shine a light on a variety of important and timely issues impacting West Virginia’s children and families.

Trisha Kingery, MA, MBA  
Executive Director  
West Virginia KIDS COUNT  
Charleston, WV

Janine Breyel  
Program Director  
West Virginia Perinatal Partnership  
Morgantown, WV

12:45 – 2:00 pm  Stonewall Ballroom  
**OB Pearls: Brief Talks – Timely Topics**

**West Virginia Bereavement Team**  
This presentation will inform caregivers and providers of the Perinatal Bereavement Team’s outreach efforts to enable each hospital and community agency to improve care for families who experience miscarriage or the death of a baby.

Christy Orndorff, RN, CHPPN, CPLC  
Pediatric Supportive Care Nurse Coordinator  
WVU Medicine Children’s Hospital  
Morgantown, WV

Mary Meadows, RNC-OB  
Clinician II and Bereavement Coordinator  
Cabell Huntington Hospital  
Huntington, WV

**How West Virginia WIC Helps**  
This presentation will review the role WIC plays in providing nutritional support for pregnant, breastfeeding and postpartum women, as well as their infants and children.

Denise Ferris, RN, LD, Dr.PH  
Director  
Office of Nutrition Services  
Bureau for Public Health  
West Virginia Department of Health and Human Resources  
Morgantown, WV

**Drug Free Moms and Babies Project: Growing to Meet the Needs of West Virginia Moms**  
This session will discuss the expansion of the Drug Free Moms and Babies Project, a comprehensive and integrated medical and behavioral health program for pregnant and postpartum women with substance use disorder. After a three-year pilot project study demonstrated success in reaching a high-risk population and significantly reducing illicit substance use during pregnancy, the program was expanded
to seven additional sites in 2018. Highlights of the original study as well as data from the new sites will be presented.

Christa L. Lilly, PhD  
Assistant Professor  
Department of Biostatistics  
West Virginia University School of Public Health  
Morgantown, WV

Alcohol Use in Pregnancy: The Hidden Disease?
This presentation will highlight a collaborative effort between the West Virginia Perinatal Partnership, the Office of Maternal, Child, and Family Health’s Project WATCH and West Virginia University’s School of Public Health, to determine the prevalence of intrauterine alcohol exposure in West Virginia. Preliminary results of a statewide study testing for the presence of a certain biomarker indicating the use of alcohol during the prenatal period will be discussed.

Stefan Maxwell, MD  
Director, Neonatal Intensive Care Unit  
CAMC Women and Children’s Hospital  
Pediatrics Medical Group  
Charleston, WV

2:00 – 2:15 pm  
Break, Networking & Exhibitor Visitation

2:15 – 3:00 pm  
Breakout Sessions

Shared Decision Making Contraceptive Counseling  
Maple Room  
This presentation is an interactive opportunity to learn a new, client led method for teaching women about birth control. Discuss bias in reproductive counseling, and learn how to use the “Education Grid” for true patient participation.

Melanie Riley RN, MSN  
Nurse Coordinator  
West Virginia Perinatal Partnership  
Huntington, WV

Anduwnyn F. Williams, BA  
Field Director for Reproductive Health Access  
WV FREE  
Charleston, WV

Reducing Maternal Mortality and Morbidity in the Postpartum Period  
Stonewall Ballroom  
This presentation will cover the latest research in maternal mortality and morbidity as a context for discussing the importance of standardized post birth warning signs education and the role providers can play in reversing this alarming trend.
Introduction to Donor Milk  
Pecan Room
This presentation will explore the use of donor milk in at-risk populations of newborns, as well as describe the screening and collection process used for human milk banking.

Denise O’Connor, BS, IBCLC
Executive Director and Founder
Mid-Atlantic Mother’s Milk Bank
Pittsburg, PA

1:30- 3:30 pm  
Concurrent Session  
Tygart Room

Bayer Intrauterine Device (IUD) Training and Simulation
This is method specific training and hands on practice is provided for health care practitioners who would like to become skilled on the insertion of Kyleena, Mirena and Skyla intrauterine devices.

This session not eligible for CME or CEU credits.

3:15 – 3:45 pm  
Stonewall Ballroom
LOCATE-ing Levels of Maternal and Neonatal Care
This presentation will review the CDC LOCATE (Levels of Care Assessment Tool) program and its implementation process. The presenter will discuss how risk appropriate care can be used as a strategy to improve health outcomes for pregnant women and infants. The presenter will highlight the experiences and outcomes of states which have adopted LOCATE.

Andrea Catalano, MPH
Centers for Disease Control and Prevention
Maternal Health Team
Atlanta, GA

3:45 – 4:30 pm  
Stonewall Ballroom
Who Knew Healthcare was so hard? Meeting the challenges of Obstetrics in rural West Virginia
In an effort to better meet the increasingly complex health and social needs of their patients OB-Gyn clinics in rural West Virginia are enhancing their clinic staff’s capabilities. This panel will highlight different models designed to meet this growing need. Participants will discuss how medical, behavioral, mental health and other care is integrated into their practice.

Anne Banfield, MD

Perinatal Educator  
Davis Medical Center  
Elkins, WV  

Rebecca Brenwalt, LSW  
Mother-Baby Care Coordinator  
Davis Medical Center  
Elkins, WV  

Coy A. Flowers, MD, FACOG  
Clinical Assistant Professor  
West Virginia School of Osteopathic Medicine  
Vice Chair, WV ACOG  
President, WV State Medical Association  
Greenbrier Physicians, Inc.  
Lewisburg, WV  

Tameran Asbury, MA LSW, SAP  
Addictions Therapist/Care Manager  
Drug Free Moms and Babies Program  
Greenbrier Physicians, Inc.  
Ronceverte, WV  

4:30 – 5:30 pm  Pecan Room  
AIM Task Force  
This meeting is for all AIM Task Force members, as well as anyone interested in the OB Hemorrhage Patient Safety Bundle implementation.  

6:00 pm  Reception and Group Photo  Terrace Patio  
7:00 pm  Dinner, & Annual Awards Presentation  Stonewall Ballroom  

Friday, November 16, 2018  

7:00-8:00 am  Registration, breakfast and vendor exhibits  

7:00-7:45 am  Tygart Room  
Vermont Oxford Network Interest Group  
Want to improve newborn care, improve critical transitions and clinical outcomes for every newborn? Grab your breakfast and join us for an informational meeting on the Vermont Oxford Network 2019 iNICQ Collaboration. VON is composed of over 1,200 NICU’s from around the world and offers data driven, action-oriented learning for improving outcomes and increasing quality, safety, and value of newborn care. WV Perinatal Partnership is one of only 5 state partnerships in the VON network.  

8:00-8:30 am  Stonewall Ballroom  
OB Hemorrhage Patient Safety Bundle Implementation
This presentation will review the current implementation of the OB Hemorrhage Patient Safety Bundle. Completion of the steps to implementation and data submitted since the 2018 project kick-off meeting will be explored.

Coy Flowers, MD, FACOG  
Clinical Assistant Professor  
West Virginia School of Osteopathic Medicine  
Obstetrician and Gynecologist, Greenbrier Physicians  
Lewisburg, WV

Melanie Riley, RN, MSN  
Nurse Coordinator  
WV Perinatal Partnership  
Huntington, WV

8:30- 9:15 am  Stonewall Ballroom

**Incorporating Tranexamic Acid into Hemorrhage Protocols**

This presentation will review the background and prophylactic use of tranexamic acid (TXA) in obstetrics as well as the results of the Woman Therapeutics Trial. Safety implications as well as the use of TXA in hemorrhage protocols will also be discussed.

John T. Sullivan, MD, MBA  
Senior Vice President  
Chief Medical Officer  
St. Clair Hospital  
Pittsburg, PA

9:15 – 9:45 am  Break and Exhibitor Visitation

9:45 – 10:15 am  Stonewall Ballroom

**Antibiotic Stewardship in WV hospitals: A Collaborative Approach**

The presenter will discuss the collective work of the state’s level III neonatal intensive care nurseries and one level II special care nursery on the Vermont Oxford Network iNICQ intensive “Choosing Antibiotics Wisely”. A brief on the new practice guidelines from the Vermont Oxford Network in newborn antibiotic care and other guidelines for all nurseries will be presented.

Jessica Haas, RN, BSN  
Clinical Research Nurse Educator  
Hoops Family Children’s Hospital at Cabell Huntington Hospital  
Huntington, WV

10:15 – 11:00 am  Stonewall Ballroom

**Neonatal Abstinence Syndrome: Rethinking Our Approach**

This presentation will review the traditional management of Neonatal Abstinence Syndrome, as well as evidence for the Finnegan Scoring Tool. The presenter will describe a new, family-centered approach developed at Yale.
Couplet Care in the NICU – Why it Matters and How to Make it Work
This presentation will review the extensive history of couplet care in the newborn nursery, the limited history of this concept in the NICU, and the studies that support its value. Practical aspects of implementing couplet care in an existing NICU, as well as the design features of new construction to optimize the delivery of this care will be discussed.

Exercise in Pregnancy – The Past, Present and Future
This presentation will review the current ACOG recommendations for exercise in pregnancy, as well as the physiologic impact of regular fitness. Issues of safety, contraindications to exercise and a demonstration of basic movements will also be covered.

HPV Vaccination in the Mountain State
This panel of experts will discuss the burden of HPV associated cancers in West Virginia. Discussion of the HPV vaccine and how its use can impact the rate of cancer in our state, as well as evidence based strategies for improving vaccination rates will be discussed.
2:15 – 2:30 pm Break

2:30 – 3:15 pm Stonewall Ballroom

Elective Inductions – Impact of the ARRIVE Study on Patients and Maternity Care Services

This panel of maternity care providers and educators will review the ARRIVE study and the implications for maternity care practices in rural and tertiary care centers.
