

WVCV Indirect Rate Policy

West Virginia Community Voices, Inc. does not allow indirect rates to be included in the budgets of subawards or grants they provide. Approved budgets are required to detail allowable expenses that specifically and directly support the services for which the award is made. The budget justification must clearly demonstrate how subawards and/or grant dollars directly pay for line items. Line items must be directly tied to services and/or clearly demonstrate their necessity for the success of the program for which funding is awarded.
